## **GCC Naroda's Startup Champions: Tales of Innovation and Success**

Under Government Commerce College Naroda Innovation Club, On 25<sup>th</sup> February 2023 GCC Naroda hosted an inspiring session featuring three remarkable entrepreneurs who shared their journeys from ideation to success in their respective startups. Snehal Leuva B.com sem 6, founder of Kisan Mitra and Mask startups, Shruti Rajput, B.com sem 6 students pioneering in the financial sector, and Vishal Gojiya B.com sem 6, driving innovation in agriculture, offered invaluable insights into their entrepreneurial experiences.

**Snehal Leuva - Agricultural and Mask Startup:** Snehal Leuva embarked on her entrepreneurial journey with a vision to revolutionize the agricultural sector. Her startup not only aimed to enhance farming techniques but help to Farmers by introducing Kisan Mitra Facility. Through dedication and innovative thinking, Snehal developed a dual-purpose venture that also addressed the growing demand for quality masks during the pandemic. Her ability to adapt and seize opportunities in times of crisis not only sustained her business but also contributed positively to the community. Snehal's story underscores the importance of resilience and foresight in entrepreneurial ventures.

**Shruti Rajput - Financial Sector Startups:** In the competitive realm of the financial sector, Shruti Rajput carved out a niche for herself with her startup. Recognizing the need for accessible financial services tailored to diverse customer needs, Shruti's venture introduced innovative solutions that bridged gaps in financial inclusion. Her success story highlights the significance of identifying market gaps and leveraging technology to deliver impactful solutions. Shruti's

journey inspires budding entrepreneurs to challenge conventions and create sustainable impacts in their chosen sectors.

**Vishal Gojiya - Agricultural Sector Startups:** Vishal Gojiya's entrepreneurial journey in the agricultural sector is a testament to innovation and perseverance. Recognizing the need for modern agricultural practices that enhance productivity while being environmentally sustainable, Vishal's startup introduced cutting-edge technologies and practices. His commitment to sustainability and technological advancement has not only transformed farming practices but has also set new benchmarks in the industry. Vishal's story motivates aspiring entrepreneurs to blend innovation with environmental stewardship for sustainable growth.

**Conclusion:** The success stories of Snehal Leuva, Shruti Rajput, and Vishal Gojiya exemplify the spirit of entrepreneurship and innovation. Their journeys from ideation to impactful businesses serve as guiding lights for students and aspiring entrepreneurs. These stories underscore the importance of resilience, innovation, and a deep understanding of market needs. As we celebrate their achievements, let us draw inspiration from their journeys and strive to create our paths towards entrepreneurial success.

### ***Training sessions of Yoga in the college Premises***

Government Commerce College Naroda places utmost importance on the health and well-being of its students. To support this commitment, Senior Professor Dr. Heenaba Zala initiated a weekly yoga session, held for one hour, that has become a cornerstone of stress relief and mental clarity for participants. Each session begins with the serene chanting of the Gayatri Mantra to seek the blessings of the Almighty.

The yoga practice encompasses a variety of postures, starting with warming up and stretching exercises, followed by a series of Padmasanas, Sukhasana, Tadasana, Bhujangasana, and concluding with Shavasana. Additionally, specific exercises aimed at relieving stress, reducing joint pain, and enhancing back flexibility are incorporated for the benefit of both students and teachers.

The sessions not only rejuvenate the participants physically but also mentally, as they conclude with an interactive segment where students can address their queries and concerns, ensuring they leave feeling refreshed and empowered.

## **Vocationalization of Higher Education under RUSA**

This vocational course, sponsored under the Rashtriya Uchchattar Shiksha Abhiyan (RUSA), aims to enhance the quality of higher education by integrating theoretical knowledge with practical skills. Government Commerce College Naroda has successfully implemented this course, catering to 61 enrolled students. This initiative aligns with RUSA's objective of creating self-reliant educational institutions that emphasize research, professionalism, and relevance to national development goals.

### **RUSA Vocational course**

Rashtriya Uchchattar Shiksha Abhiyan is a holistic scheme of development for higher education in India initiated in 2013 by the Ministry of Education, Government of India. The centrally sponsored scheme aims at providing strategic funding to higher educational institutions throughout the country.

**Objectives:** The key objectives of RUSA are to improve access, equity and quality in higher education through planned development of higher education at the state level. It aims at creating new academic institutions, expanding and upgrading the existing ones, developing institutions that are self-reliant in terms of quality education, professionally managed, and characterized by greater inclination towards research and provide students with education that is relevant to them as well the nation as a whole.

To improve the quality of higher education, central government started RashtriyaUchchtar Shiksha Abhiyaan (RUSA) under which there are 18 components. Out of these components, component 12 Vocationalization of Higher Education aims to develop the quality of higher education through various courses. Under component no.12 of RUSA, Government Commerce College Naroda has received funding. Based on the information presented before the committee on 23/5/2018 by Government Commerce College Naroda, permission has been granted to conduct the course as per the details shown in the table below. The undersigned accepts and agrees to comply with all the terms outlined in this MOU for running these courses."

Total 61 students enrolled under this course. The students have gone through both theory session and practical sessions too. At the end of the practical the students are also given some hands on training i.e. students perform the practicals by their own.

## Social Welfare Activities

### **Donation to Orphanage homes Under Mission Education**

**“We make a living by what we get, but we make a life by what we give”. -Kathy Calvin**

**Context:** As a keystone of human development and progress, education has long been recognized as an essential element in cultivating the skills, knowledge, and critical thinking abilities necessary for individuals to thrive in the ever-changing world we inhabit. It is a fundamental human right, yet many children around the world are deprived of access to basic education. In fact, according to the ASER (Rural) report during the pandemic, children (aged 6-14 years) who are not currently enrolled in schools increased from [2.5 percent in 2018 to 4.6 percent in 2021](#).

Underprivileged children lose their ability to have a normal childhood. They aren't capable of developing emotionally, physically, and socially. Moreover, research has shown that they are more likely to be depressed, have low self-esteem, not receive an education, and suffer from a lack of sleep and bad nutrition. As these children grow up, they are less likely to positively contribute to society since they might not be able to hold a stable and well-paying job. Instead of working, they are more likely to partake in crime and fall victim to the criminal justice system. This is where [education donation](#) comes in, as it can help provide underprivileged children with the opportunity to learn and grow.

Children are the nation's future. Without them, the world would go nowhere. Not only will giving to charities benefit the children themselves, but it will also positively affect the society.

Government Commerce College believes that the power to better the lives of others, is considered a privilege. It comes with a feeling of contentment and gratitude.. In addition to reinforcing our own personal ideals, acting on these intense sentiments of responsibility gives us a sense that our actions are consistent with what we ethically believe in. Government Commerce College, Naroda took the initiative to organize a **“Education related Donation Drive”** to cater to the needs of those in position of necessity.

The primary objective of organizing the Donation Drive was to help bridge the gap between people who are willing to aid the less fortunate and those in positions of necessity The students to donate things like pen, pencil, books, rubber etc for the children of orphanage home . Many of us, though, are lucky enough to have more than we need but there are millions of families and individuals who are less fortunate.

**Support and Solidarity: Enhancing Lives Through Educational Donation**

## **Title: "Championing Sustainability: Empowering Environmental Awareness"**

The "Eco-Friendly Book Campaign" undertaken by our college represents a proactive stance towards sustainability and environmental consciousness. By collecting and segregating used notebooks, and repurposing unused sheets into new notebooks for underprivileged children, the initiative effectively minimizes paper waste. This holistic approach not only conserves valuable natural resources, including trees and water, but also reduces the ecological footprint associated with traditional paper manufacturing processes.

### **Eco-Friendly Book Campaign**

#### ***The context:***

Research says, recycling 1 ton of paper can save 17 trees, 7000 gallons of water, 380 gallons of oil, 3.3 cubic yards of landfill space and 4000 Kw of energy and helping in reducing greenhouse emissions. Paper accounts for 25% of landfill waste.

Paper is one of the easiest products to recycle. The Institute reuses paper to turn it into new paper items. This prevents waste and also conserves resources and energy used when making paper from scratch. By reusing paper, we prolong the lifecycle of the materials and reduce the carbon footprint of the manufacturing process.

#### ***The Campaign:***

Under the "Eco-Friendly Book Campaign" the volunteer students collected books that were segregated, rebound and distributed among school children. We told our students that if your notebooks or fullscapes have unused pages, don't keep them away in a cupboard or give them to a scrap dealer. Instead, you can donate them to make new books which will help both the environment and other students like you.

With "Eco-Friendly Book Campaign", "Planet-Friendly Pages Program", "Paper Conservation Initiative" the college collects used notebooks from students, segregates used and unused sheets, the unused sheets will be used to bind new notebooks and then distributed back. Unused pages of notebooks are bound afresh to create notebooks for less privileged children.

#### **Positive Impact**

It takes 17 full grown trees to make one tonne of paper. If we minimize use of paper and find better ways of recycling paper, many trees and forests can be saved.

We should save, reuse and recycle paper. By this way, we will not only save trees but also save energy and water needed for manufacturing paper.

Moreover, the amount of harmful chemicals used in paper making will also be reduced.

**Green Initiative: Reducing Ecological Footprint through Book Repurposing**

**Students of our college taking the noble initiative of paper conservation by segregating unused and used sheets so that unused sheets can be used to bind new fullscapes and notebooks.**

**Participation of students and Teachers in Eco-friendly book campaign, Transforming Waste into Resources**
